Professional Summary

Passionate and results-driven React Developer with a solid foundation in front-end development and a strong focus on creating dynamic and responsive web applications. Proven ability to deliver high-quality software solutions using modern JavaScript frameworks and libraries.

Technical Skills

- **Languages:** Java, JavaScript, HTML, CSS, Bootstrap
- **Frameworks & Libraries:** React.js, Hibernate, Spring MVC, Spring Boot
- **Databases:** MySQL, SQL, MongoDB
- **Tools:** Git, GitHub, VS Code, AWS

Experience

Web Developer Intern

Jan 2024 – Present

Oytie Private Limited

Pune, Maharashtra

- Developed dynamic and responsive web applications using React.js, ensuring a seamless user experience across various devices.
- Implemented state management using Redux to maintain application state, enhancing performance and scalability.
- Collaborated with back-end developers to integrate RESTful APIs, facilitating efficient data exchange and processing.
- Enhanced UI/UX by leveraging modern front-end technologies, resulting in improved user engagement and satisfaction.
- Utilized version control systems like Git for efficient project management and collaboration.

Education

ASM's IBMR College, Pune

2021 - 2023

Master of Computer Application (MCA)

GPA: 7.10/10

Brijlal Biyani Science College, Amravati

2018 - 2021

Bachelor of Computer Application (BCA)

GPA: 7.0/10

Projects

Gemini Chat Clone

Feb 2024 - July 2024

Tech Stack: JavaScript, HTML, CSS, React, Node.js, Vite, Gemini-API

- Created a chat application that allows users to interact with an AI chatbot, handling prompts and responses asynchronously.
- Implemented features such as recent prompt history and dynamic word-by-word response display, enhancing user interaction.
- Utilized WebSocket for real-time communication, ensuring seamless and responsive chat experience.

Mess Finder Android Application

Oct 2023 - Dec 2023

Tech Stack: Java, XML, SQLite, Firebase

- Developed a user-friendly Android application to help users find nearby mess services, enhancing convenience and accessibility.
- Implemented real-time database functionalities using Firebase, ensuring smooth data synchronization and user experience.
- Designed intuitive UI/UX with XML layouts, improving user engagement and satisfaction.

College Management System Web Application

Jan 2022 - Mar 2022

Tech Stack: HTML, CSS, JavaScript, jQuery, Bootstrap, MySQL

- Designed and developed a comprehensive web application for managing college administrative tasks, streamlining operations.
- Utilized MySQL for database management, ensuring data integrity and efficient query processing.
- Implemented responsive design using Bootstrap, providing a consistent user experience across devices.

Certifications

- Full Stack Development in Java - 2024
- AI for Everyone: Master the Basics - September 2022
- React Developer Certification - 2023
- JavaScript Algorithms and Data Structures Certification
